

esko ELS Oil Flow Monitoring Station

The Esko Oil Flow Monitoring Station uses state of the art TOUCH SCREEN technology for monitoring oil lubrication.

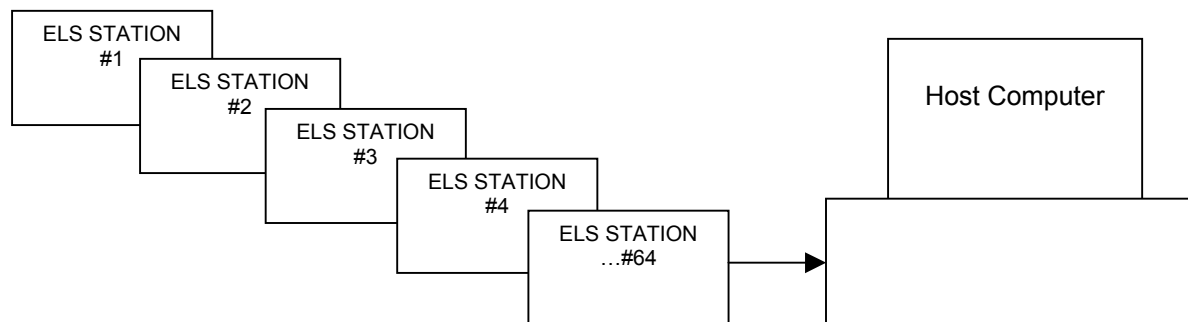

Features

- Monitors up to 64 oval gear flow meters
- Highly visible color touch screen display
- Easy to use touch screen for selecting user set limits
- Robust stainless steel cabinet
- Designed for demanding paper industry applications
- Remote monitoring available to PC, DCS or PLC
- Collects field measurements and transmits them to a central monitoring station PC via RS-485 connection

*User-friendly
Touch screen
display*

*Clear, bright easy-to-read
Color touch screen*

- Each station can have up to 64 oval gear flow monitoring points
- Up to 64 stations can be connected to the host computer, making the maximum system capacity over 4000 flow monitoring points
- The ESKO LUBE MONITORING software in the HOST COMPUTER stores the flow values for all points for all time. This means that you can have total historical trending of ALL flow points set limits

ELS Oil Flow Monitoring Station

Order Guide

ELS

16		Up to 16 inputs
32		Up to 32 inputs
48		Up to 48 inputs
64		Up to 64 inputs

Technical specifications

Pulse Inputs	64 max: open collector proximity sensors
Analog Input (optional)	4...20 mA or 2-10 V DC (1 only, specify at time of ordering)
Serial Port	Selectable RS-422/485 or RS232 RS-422/485 opto-isolated (max. transmission distance 4000 feet (1200 m)) or RS-232 (max. transmission distance 20 feet (4 m)) Baud rate 9600, 8 data bits, 1 stop bit, no parity
Alarm outputs	8 potential free gold-plated dry contacts Voltage: 150 V max. Current: 1.25A Loading: 50 VA, 3W max.
Supply voltage	85 to 264 VAC, 25W AC-Line Fuse 2A, fast
Display	5.5" color touch screen (320 X 240 resolution)
Temperature	+50...+140°F (+10...+60°C)
Relative humidity	20...80 %
Maximum Vibration	< $\pm 20 \text{ m/s}^2$ < 2 g
Classification	IP 65
Enclosure material	AISI 316
Dimensions	18" width x 15" height x 4" depth
Weight	Approx. 11 lbs. (5 kg)
