- ◆ Max. flow rate of 1,000 cm3/min
- ◆ Max. working pressure of 10,000 psi (700 bar)
- ◆ Protective rubber cover
- ◆ In line design; easily fitted on most greasing devices

Technical Specifications

Part Number	0102390-2
Material; Housing:	Aluminum, anodized
Material; Seals:	Neoprene Rubber
Maximum Flow:	1,000cm3/min (max)
Measuring Accuracy:	± 3% up to 300 bar (4,300 psi)
Working Pressure:	700 bar (10,000 psi) max.
Number of digits / height:	4 digits / 9mm height
Grease Medium:	NLGI #3 or softer
Battery:	2 pcs LR1 (1.5 V)
Connection:	1/8" FNPT
Weight:	0.3kg (0.66 lb)

Benefits

- ◆ Easy installation and operation
- ◆ Accurate metering of grease dispensed
- ◆ Perform greasing more efficiently and accurately
- ◆ Advanced tool for preventive and predictive maintenance
- ◆ Saves grease, reduce waste and cleaner environment

Versatile Applications

This new, unique and advanced electronic Greasemeter is designed for installation on most grease application devices;

- ◆ Manual operated Grease Guns
- ◆ Pneumatic Grease Control Valve
- ◆ Electric Cordless Grease Gun
